

“World class and timeless beauty, finest technique and craftsmanship ”

PINNACLE OVERSEAS

SA 8000 : 2014 Certified Leather Goods
Manufacturing Company

About Us

Pinnacle Overseas has an experience of three decades in the field of leather goods manufacturing. With its inception in 1989, Pinnacle Overseas has unique knowledge of craftsmanship and absolute quality in all its products. With state of the art manufacturing facilities and skilled craftsmen, Pinnacle Overseas is one of the fastest growing high fashion quality leather goods manufacturer and exporter in eastern India. With a clear vision and innovation, Pinnacle Overseas has emerged as the ideal choice for many brand partners for manufacturing high fashion quality leather goods across the globe.

Inimitable innovation with skilled craftsmanship translates unique design ideas into novel fashion concepts using new leathers, texture, colors, and style.

Vision

The inclusive sweep of Pinnacle's professional ethics, covers the work-space, the workers, the products, and the customers. WTO norms, and the national/international Industrial Laws/Guidelines relating to non-exploitative work policy, Human Rights, and the environment, are adhered to. Discerning customers have to be assured about the eco-friendliness of the product they buy.

“We stand and abide with our ethics and professionalism.”

Unerring skill, superb craftsmanship, minutest care for quality, competitive excellence of products, and time-bound shipments are our hall marks for the last three decades.

Key Success Drivers

01

TEAM- Our pool of experienced designers, product developers, merchandisers, purchase specialists, managers, and quality inspectors from reputed institutes, skilled craftsmen and technicians help to deliver world-class merchandise as per the requirement.

02

WIDE PRODUCT BASKET- Diversified product basket, pioneering an extensive range of fashion accessories. Our products are manufactured with best-in-class leather and assembled using the finest technique and craftsmanship. We, at Pinnacle, ensure that every product is inspected to meet perfect quality standards. The finest quality and selection of leathers are used to make the elegant and timeless class of products.

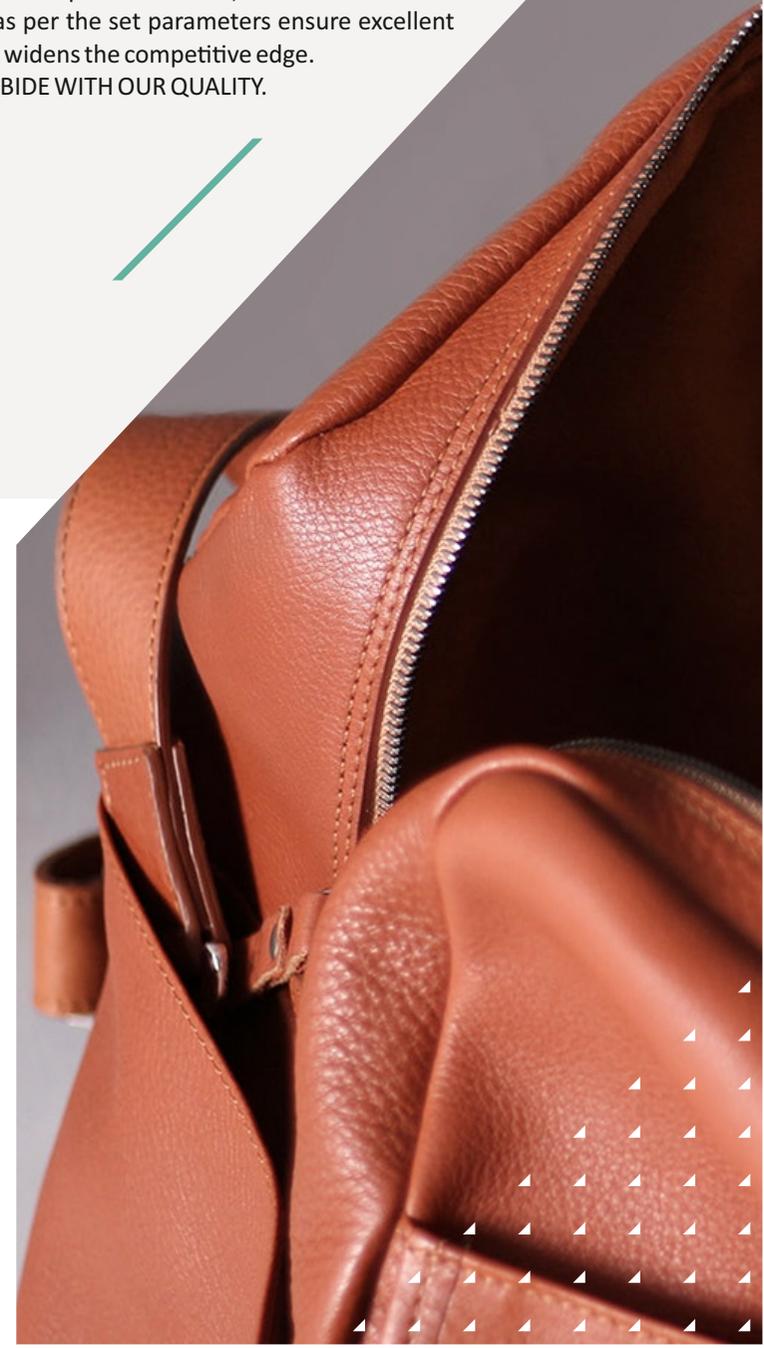

04

TECHONOLOGICAL AID- Latest technology Computer-aided design (CAD) software enables to create accuracy; fashion drawing, pattern making and a clear idea of what the final product will look like. With digital rendering and in-depth study of product specification, we are able to focus and guide requirement in a more proactive and scientific manner.

03

QUALITY- With state of the art machinery & stringent quality control in between the production line, random checks and other measures as per the set parameters ensure excellent product quality & widens the competitive edge. WE STAND AND ABIDE WITH OUR QUALITY.

“ We combine design, thinking & technical craft. ”

Our Leathers

Our beautiful range of leathers are ethically sourced from certified and quality vendor partners based in India, Italy, Spain, Bangladesh & Thailand. Proactive sourcing team enables **Just-In-Time** system of materials input for production. The finest quality of leathers from tanneries around the world gives each product its unique characteristics.

The selectors give the craftsmen the leather they exactly need. Each skin is new experience for the craftsman, as he cuts the components appropriately, and responds to its looks and hand-feel.

Grasping the exciting diversity of leather is a craftsman's *raison d'être*.

Experienced selectors know that the craftsmanship varies according to the multiple characteristics of each individual skin, and also that its different portions uniquely respond to the various tanning processes.

The selectors give the craftsmen the leather they exactly need. Each skin is new experience for the craftsman, as he cuts the components appropriately, and responds to its looks and hand-feel.

“ The ultimate input is supreme care, bestowed to genuinely fine leather, to ensure enhancement of its richness with use. ”

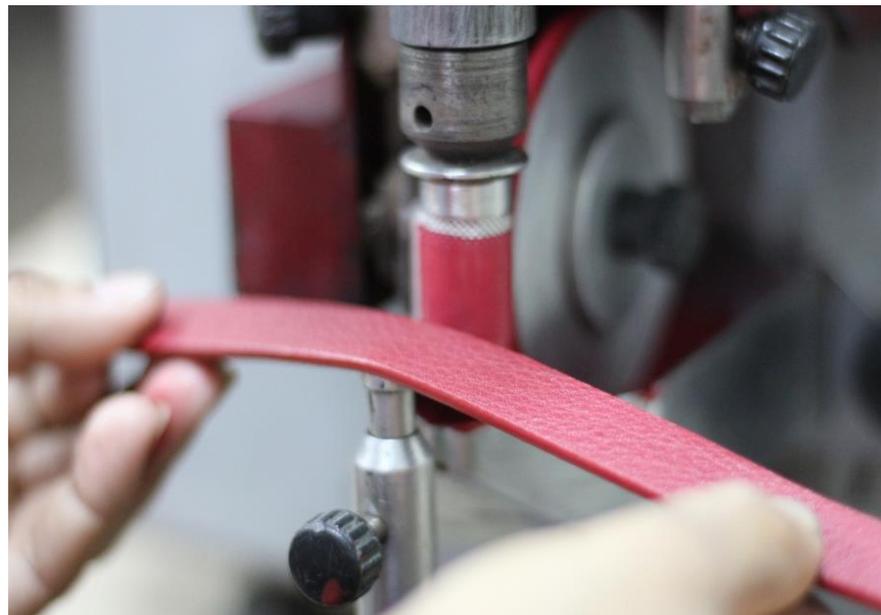

02 Technology

Lean manufacturing process is practiced at every stage of the production. This ensures optimum productivity and effective utilization & allocation of resources.

01 Our machines

Equipped with world class facilities and state of the art machinery, PINNACLE OVERSEAS is equipped to handle any requirements. Latest technology Computer-aided design (CAD) software enables to create accuracy; fashion drawing, pattern making and a clear idea of what the final product will look like. With digital rendering and in-depth study of product specification, we are able to focus and guide requirement in a more proactive and scientific manner.

Carefully selected smallest of inputs that go into making the product, like German needles from Schemtz, zippers from OOK & YKK - Japan, and edge ink from Fenice & Girba Srl Italy, impart the finesse to the product.
